All evaluations share similar rules listed below:

Rules	1 Step	2 Step	Notes
Profit Target	8%	P1: 10% P2: 5%	<ul style="list-style-type: none"> The trader successfully completes the Evaluation Phase upon reaching the designated profit target, provided they have also met the consistency rule and have adhered to all other conditions outlined here and, in the Terms and Conditions. Once Phase One is completed, the trading account used during that phase will be locked. The user will then be issued a new trading account for Phase Two.
Daily Loss Limit	3%	5%	<ul style="list-style-type: none"> Violating this limit constitutes a hard breach, resulting in the loss of access to the account. The Daily Loss Limit is the maximum amount the account can lose in a single day, calculated based on the balance from the previous day and resets at 5 PM EST.
Max Drawdown	6% (Trailing)	10% (Static)	<ul style="list-style-type: none"> Violating this limit constitutes a hard breach, resulting in the loss of access to the account. Maximum drawdown refers to the maximum amount the account can lose during the evaluation period. A static drawdown means the limit is set based on the initial balance and does not adjust as the account balance changes. A trailing drawdown means the limit tracks the high water mark of the account balance, adjusting the drawdown limit accordingly. However, this limit is capped at the initial funded amount during the authorized live account stage. The maximum drawdown will be set to the initial funded amount of the account after the first payout has been processed.
Consistency Rule <i>(Min Daily Profit and Trading Days)</i>	0.3%-1% 3 Days	0.3%-1% P1: 4 Days P2: 2 Days	<ul style="list-style-type: none"> The trader must be profitable within the designated number of days and achieve a daily profit that is greater than the required amount. 0.3% for 5K to 10K Accounts 0.5% for 20K to 100K Accounts

		<ul style="list-style-type: none"> • 1% for 200K to 400K Accounts
Evaluation Duration	180 days for each phase	<ul style="list-style-type: none"> • Traders are given 180 calendar days to meet their profit targets. This timeframe is set to evaluate a trader's ability to perform under pressure within a structured period. • In case the trader doesn't meet the requirement of evaluation time limit, the account will be terminated.
Inactivity Days	14 calendar days	<ul style="list-style-type: none"> • If no trades are placed within 14 calendar days after purchasing an account or during the evaluation, it will be considered a hard breach, leading to account closure. This rule ensures that all traders are actively participating from the moment they initiate their trading journey.
Benefits and Rewards	Free Upgrades	<ul style="list-style-type: none"> • After holding a funded account for 60 days, traders gain access to several enhanced benefits: <ul style="list-style-type: none"> ○ An upgraded profit split of 90% ○ Improved trading conditions, including lower spreads upon request ○ The ability to hold positions over the weekend
News Trading	Allowed	<ul style="list-style-type: none"> • News Trading is allowed in SiegFund, providing traders with the flexibility to capitalize on market movements during significant economic events and announcements.
Copy Trading	Allowed	<ul style="list-style-type: none"> • Copy Trading is allowed in SiegFund, enabling traders to follow and replicate the strategies of experienced professionals, making it easier to benefit from the expertise of others in the market. But group trading or applying signal to more than 1 evaluation account will be defined as a breach.
HFT	Allowed	<ul style="list-style-type: none"> • High-Frequency Trading (HFT) is allowed in SiegFund, allowing traders to use rapid, algorithm-based trading strategies to capitalize on small price movements in the market.
EA	Allowed	<ul style="list-style-type: none"> • Expert Advisors (EA) are allowed in SiegFund, enabling traders to automate their strategies and

		execute trades based on pre-set criteria, enhancing efficiency and precision in trading.
Weekend Holding	Allowed only on 2 Step Flex Evaluation	<ul style="list-style-type: none"> Weekend Holding is permitted exclusively in the 2 Step Flex evaluation, allowing traders to keep positions open over the weekend as part of this specific evaluation format. For all other evaluations, trades must be closed by 23:50 GMT+2 (Standard Time) or GMT+3 (Daylight Saving Time) on Friday. Any trades left open after this time will be automatically closed. This is classified as a soft breach, allowing you to resume trading once the markets reopen.
Stop Loss	Mandatory for accounts of 200K and 400K	<ul style="list-style-type: none"> For accounts with balances of \$200,000 and \$400,000, setting a stop loss is mandatory as part of Siegfund's risk management policy. This requirement aims to limit potential losses on high-balance accounts. For accounts with balances below 200,000, setting a stop loss is optional.
Retry Discount	20% (for 5K to 100K accounts)	<ul style="list-style-type: none"> Users who do not successfully pass a Challenge are eligible for a discount on their retry fee. Group Trading	Prohibited	<ul style="list-style-type: none"> For clients utilizing EA Copy Trade, please note that only one external account may be linked to a single evaluation account. Employing the same strategy across multiple accounts will be classified as a breach of policy.

Hedging	Prohibited	<ul style="list-style-type: none">• If a client has multiple trading accounts, they must use different trading strategies. For example, opening positions in opposite directions or using the same lot size at the same time may be deemed as hedging behavior and considered a violation.
